I am 23 years old and currently work at InnoTeq Kft. I have been with the company for almost 3 and a half years. I consider myself a helpful and empathetic person, which enables me to work effectively with others. I enjoy challenges and am constantly striving to improve myself. I always set new goals for myself and aim for the best in everything I do. As a result, I have launched multiple stores and successfully established a brand in 2024.
